

# Darren Lederman is in desperate need of a second bone marrow transplant.

*Could you be the match that saves his life?*

Darren Lederman, resident of Westfield NJ, husband to Stacey Katcher Lederman, a beloved and long-standing teacher in Warren Township, and father of two young children, was diagnosed last year with Acute Myeloid Leukemia (AML). He received a bone marrow transplant in May, but just learned his cancer has returned and he needs another transplant immediately. If you are between the ages of 18 and 55 and in general good health, you are eligible to participate in a 10 second cheek swab.
