

Warren Township Schools

Shining Brighter Every Day

Dear Warren Township Community Members,

For the past several months, the district's strategic planning facilitators Ben Shuldiner and Rebecca Stilwell have been meeting with students, alumni, parents, community members, and employees to gather input regarding the current state of the district and what we desire for the future. The input phase of that work concluded with a presentation to the Warren Township Board of Education in late December. A video of that presentation can be found [here](#).

This letter serves as the official recruitment kick-off for community members to serve on one of the four action teams that will refine the strategic plan focus areas into actionable goals and measures of success. Individuals on these teams will have a significant impact on the direction of the district over the next five years.

An overview of the role of an action team member, the commitment involved, and an application to participate can be found [here](#). The deadline to apply is Tuesday, January 14, 2020.

Thank you for your contributions to the process so far. I am excited about the work ahead as we define the next five years of *Shining Brighter Every Day* together.

Sincerely,

Matthew A. Mingle

Matthew A. Mingle, Ed.D.
