The New Jersey State Department of Education has established Project CHILD FIND, a free public awareness and referral service, to assist families, professionals and interested individuals by identifying available early intervention, preschool disabled, and special education programs and services throughout New Jersey.

Individuals and/or families who know of a child within the age range of birth to 3 years of age with a suspected or known disability should call Early Intervention Services (888-653-4463), while individuals and/or families who know of a child within the age range of 3 years to 21 years should contact the public school district where the child resides or the county supervisor of Child Study (Somerset County 908-541-5700) to find out the appropriate contact person in the district. Send a written request for an evaluation to the appropriate contact person. Include the parent's or legal guardian's name, and address as well as the child's name, age, address and suspected or known disability.

The contact person for Warren Township School District is Mr. Derek Ressa (908-753-5300, extension 5704).
